

STUDY

As a married student, you are guaranteed the same academic experience as any other Bible Institute student attending Word of Life. Classes are 7:30-12:30 every Tuesday to Friday throughout the academic year.

LIFE

Word of Life desires to make housing available on property for married students, substituting dorm life for a home with family. Upon receiving WOL housing, married students and their spouses are expected to maintain and upkeep the yard and grounds around their house and respective property. Tools for upkeep may be lent or provided for your convenience.

The Student Life Department works hard to make sure married students have adequate time at home with their families while still experiencing life outside the classroom. You will be paired with a staff member for weekly discipleship and will be invited to birthday parties, banquets, and other events, often along with your family, as hosted by Student Life. Married students are not scheduled for Kitchen Assignment or Work Time or expected to log P.E.

MINISTRY

Married students receive practical ministry training by participating in weekend outreaches, camps, and leadership alongside fellow students in the local church.
